

Pre-conference Meeting

20th February, 2011
2pm—6pm

Cebu, Philippines

INTRODUCTION:

The Rajakumar Movement is the Wonca Asia Pacific Working Party for New and Future General Practitioners. It was officially launched on June 5th 2009 in Hong Kong by members of the Rajakumar family, Datuk Dr Daniel Thuraiappah and Dr Naomi Harris.

This preconference in Cebu, will be the first of many for The Rajakumar Movement in uniting the younger General Practitioners in the Asia Pacific Region of World Wonca.

With the desire for allowing networking, education and exchanges, The Rajakumar Movement is slowly stamping its ground in our region as an organisation that fosters new and future general practitioners to expand their horizons and gain exposure to different models of healthcare.

The opportunity to meet and work in small groups with the future of general practice in the Asia Pacific Region is something which we can not miss.

The Philippines have offered incredible support to The Rajakumar Movement since its inception. Cebu is the ideal location to host the 1st Rajakumar Movement Preconference.

*Dr. Naomi P. Harris
Founder,
The Rajakumar Movement*

PURPOSE OF PRECONFERENCE:

The purpose of this preconference is to promote The Rajakumar Movement in the Asia Pacific Region, and also to further develop identified areas of the organisation.

This preconference is based on the preconference which I was co-convenor of in Mexico at the 19th World Wonca Conference in May 2010. From this preconference we were able to launch an Iberoamericana Movement and the birth of the North American movement also ensued.

From working together as a group we will be able to ensure that The Rajakumar Movement is relevant to the general practitioners that it represents.

I would also hope that members of the Asia Pacific Wonca Committee will be able to attend the opening of the preconference to show their support for those of us at the preconference.
